

## WHO WE ARE

We are a statewide grassroots climate justice group. We work together in local communities, we coordinate action statewide, and we join in national mobilizations. There is a place in this movement for everyone!

## TAKE ACTION WITH US

We have a ton of ways to get involved and we'd love to help you find the way that you're excited about. Fill out our interest form using the QR code below or visit our website, and one of our organizers will reach out to you!

## OUR MISSION

350VT is building a people-powered and people-led climate justice movement in Vermont for a just, thriving world.

We are guided by the voices, experiences, and solutions of those most impacted by the global climate crisis. We strive to work at the intersections of the climate crisis and social justice to address the climate crisis equitably and effectively.

We are building collective power for climate justice.

## WORKING FOR A JUST TRANSITION FOR VT

We're calling for a Just Transition off of carbon-based fuels. We're asking Vermont's decision-makers to take bold action for a thriving, just future for ALL of Vermont's people, communities, and ecosystems.
